L6-1

Welcome aboard! Our journey to the famous Statue of Liberty will take about fifteen minutes. The statue can be seen from many places in New York, but I think you can enjoy the best views from this ferry!

The Statue of Liberty came to America from France in the nineteenth century. It is 46 meters tall. It is loved by tourists from all over the world. It is visited by over four million people every year.

L6-2

Yumi : When was the statue built?

Guide : It was built in 1886. It arrived from France in 1885, but it wasn't completed until 1886.

Yumi : What do you mean?

Guide: Well, the statue was brought in pieces to New York. The pieces were brought by ship, and they were put together in New York.

Yumi : I didn't know that. How was it painted?

Guide : Actually, the statue is not painted. It is covered with a very thin layer of copper. Copper is usually a shiny bronze color, but it gradually becomes green over time.

L6-3

Here are photos of my trip to the Statue of Liberty. The guide said that the statue is called "Lady Liberty" by many Americans.

It's quite a cute name!

I was surprised to know that this famous statue is not from America! It was given to the US by France in the nineteenth century. I thought it was painted green, but actually it is covered with thin copper.

I went inside the statue. I had to go up hundreds of steps to reach the crown of "Lady Liberty," but the view from there was fantastic!
